Subject: J102 Air Sample Grab

The TO-15 analysis of a grab sample in J102 on Monday 1/27 did not detect MCHM. Ethanol

was picked up at 36 ppbv, acetone at 2.4ppbv, MeCl₂ at 2ppbv and several others at lower amount. A copy of the quantitation report and chromatogram is attached.

A TIC search did not yield any match with MCHM.

Hoang
